## PROFILE

Hello, My name is Ola, I'm 20 years old, Programming is my passion, I am ambitious and always set goals for me to motivate me to work hard in my position.

I am looking for an opportunity to improve my standards for the better because I feel excited when I start learning something new to improve my skills and expand my scope of learning and knowledge. Also I looking forward to learning more technologies, and make useful things that everyone can use it, learn from it and be a role of change and maybe create a new language, to be a real contributor to the development of my country's economy.
